1. The attached letter serves as further corroboration of the outstanding reputation you have earned during your service as Commander of Company B of the 4th Engineers and Brigade Engineer of the Fighting First Brigade of the 4th Infantry Division.
2. Your departure from the Battalion is a personal loss for me as well as a professional loss for the Battalion. You have established a record of excellence which will be difficult for succeeding commanders of B Company to match and will require the same "extra effort" and mission - orientation so characteristic of your service.
3. I join with Colonel Feir in wishing you God speed and good luck.
